

WHAT? Remains of houses on or by water built on wooden piles.

WHERE? In the area of Ljubljana marshes near the Alps.

WHEN? 5000 BC

They believed in mother earth. They made beautiful ceramic pottery useful for every day spiritual rituals. Men had more than 1 wife.

We know about 111 archaeological sites and they have also found a disc bike with an axle and it's about 5200 years old (this shows their incredible intelligence).

On 27th June 2011 pile dwellings became a part of UNESCO

PILE DWELLING REMAINS

They made a living with:

- Farming
- Stock breeding
- Gathering
- Fishing
- Hunting
