

# IF I WERE THE HEADTEACHER AT OUR SCHOOL...

1. 12. 2020 – VITA ŠKOF

## If I were the headteacher at our school ...

... I would definitely be a cool headteacher. Our students would be allowed to do whatever they want. I would also cancelled the homework. I think our students would need to wear school uniforms because I really like them. I think it looks great when all the students wear very similar or even the same clothes.

## LESSONS

Each of the students would have one lesson per day. He would also be able to decide which lesson he want to take. I would respect his personal preferences and abilities. On our list of lessons are:

- English,
- Math,
- Art,
- Music,
- Science,
- Geography,
- History,
- Biology and
- Sports.

Our teachers would be specially trained to work with kids. If I went on vacation, they would be able to go on vacation too. Kids would be free on those days. So they would have holidays. We would have holidays in every season: summer, winter, autumn and spring.

## How would our school look like?

### OUTSIDE

Outside our school there would be a massive playground. There would also be a football pitch, a basketball and tennis and a hockey rink. If I were a headteacher, there would also be a swimming pool. Our students would be able to develop their talents. There would also be a lot of benches all around our playgrounds and courts.

### INSIDE

Inside our school there would be a lot of interactive furniture, toys and tables that students would like and recommend. Our building would be tall and very modern. If I were a headteacher, I would also build a gym.

# IF I WERE THE HEADTEACHER AT OUR SCHOOL...

I would take care of our students if I were a headteacher. I would make sure that they are appreciated and that they do good in their classes. I would make sure that they learn as much as they can. But they would have to be hardworking, polite and grateful so we would be in a good relationship.

With all respect,

your future headteacher ☺
